

The world is your stage.

New ITU uniform rules set to take effect in 2008 and 2009, have led De Soto to design and produce one of the first ITU approved trisuits on the market.

These rules include zippers down the back and no more than 12-inches long, as well as panels that will accommodate each racer's last name, their country, an ITU symbol, and sponsors.

The crew at De Soto has looked at these new rules as an opportunity to take their expertise in design and experience in ITU World Championship racing to make a men's and women's ITU trisuit.
